

6<sup>th</sup> Central Europe Conference

TRIESTE - ITALY

September 10-13, 2013

# B Chemistry towards I o g y

First announcement

## Topics

- ✓ Carbohydrate chemistry and biochemistry
- ✓ Chemistry of cell biology
- ✓ Nucleic acid chemistry
- ✓ Structure, function and interactions of proteins
- ✓ New/engineered enzymes
- ✓ Drug design and drug delivery
- ✓ Molecular pharmacology, medicine and biomaterials.

## Aims

The main goal of these symposia is to bring together scientists whose research interests are at the interface between chemistry and biology, thus transcending the specific topics of these disciplines and pursuing an interdisciplinary route which is the main characteristic of modern science. The interdisciplinary character of the conferences will certainly promote the cross-fertilization process to accelerate the advancement of knowledge.

## Chemistry & Biology towards new Opportunities

- ✓ **Getting ready for Horizon 2020:** "Common Strategic Framework: objectives, priorities, resources and opportunities". A representative of EU DG Research & Innovation will be present.
- ✓ **Brokerage event:** Participants will have the opportunity to illustrate schematically their expertise, with the intent of structuring potential consortia for applications to EU funding:
  - Working group A: "Integrating expertise for training and career development" (Marie Curies Actions);
  - Working group B: "Cross-fertilization of knowledge and connecting people" (Industrial Leadership program).
